<p><b><u>STATEMENT OF PURPOSE</u></b></p>	<p><b>JOHN B. WRIGHT ELEMENTARY SCHOOL - We are an AVID, OMA Gold, &amp; STEM School!</b></p> <p>We are training Arizona's future scientists, engineers, technologists, artists and mathematicians! Wright School provides a rich and fertile field of learning where to cultivate a brilliant crop of thinkers, innovators, problem-solvers, artists, communicators and leaders who will not only fill the jobs of the future, but will also have the intelligence and strength to forge a future that will have a positive impact on our planet.</p> <p>John B. Wright adopted the AVID or Achievement Via Individual Determination philosophy to help encourage our students to achieve our school and university mission. We will continue to focus on science, technology, engineering, and mathematics (STEM) and incorporate STEM throughout the curriculum, in social studies, language arts, music and even games. Wright students are always encouraged to be curious and explore their ideas. Teachers help children develop confidence in their learning and look to the future. Every morning at Wright, children declare the mission of our school: "We are training Arizona future scientists, technologists, engineers, artists and mathematicians."</p> <p style="text-align: center;"><b>"GO WILD CATS"</b></p>
